

Community of Practice Multi Use pilots North Sea

Practical part of NS strategy 2030

Nathalie Scheidegger

Ministry of Nature, Agriculture & Food Quality

Dutch North Sea Strategy

- 4 Ministries involved: Agriculture, Nature and Food Quality/ Infrastructure and Water/ Economic Affairs and Internal Affairs
- Focus on three transitions:
Energy - Aquaculture - Nature
- Approach by interaction between strategy with concrete multi-use pilots in and outside of the wind farms

Community of Practice : what WE feel

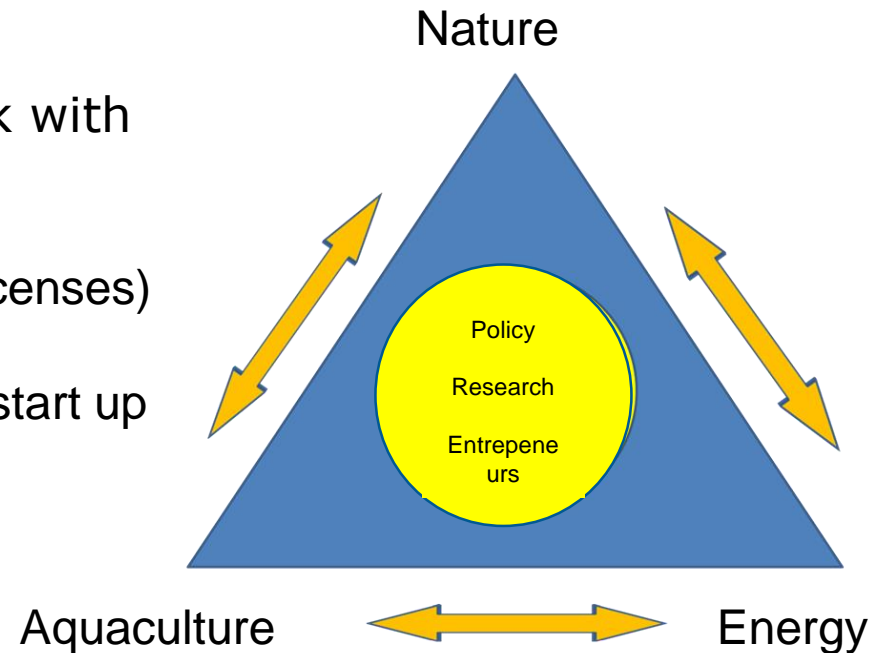

WE ? : 160 participants from government, enterprises, research and NGO's

- Shared challenge to get multi-use of the ground
- Urgency to act fast concerning autonomous developments
- Develop MU concepts and realize them together
- Make the step from theory to practice

Community of Practice : what WE create

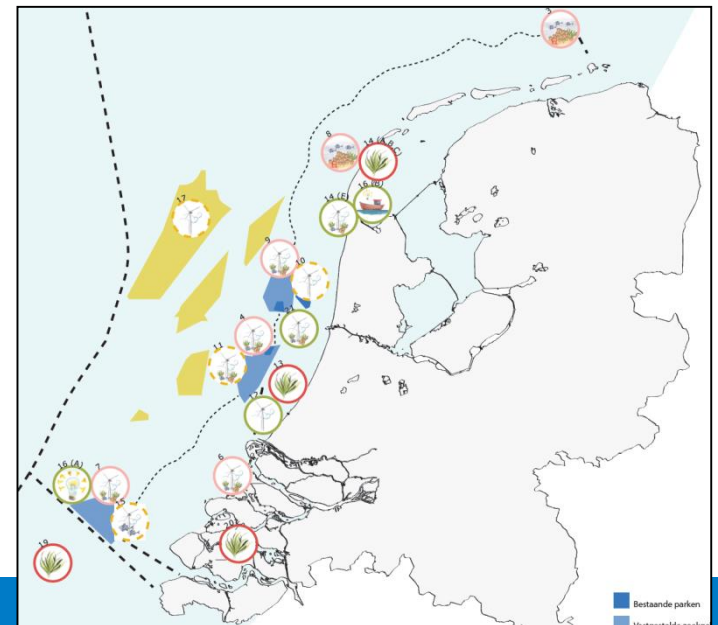

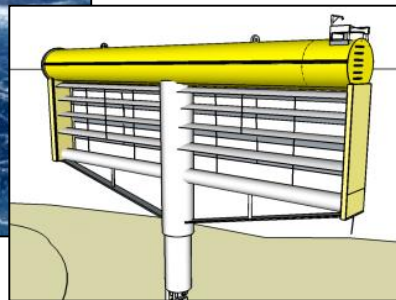

- Explore the best use of space at sea and sustainable blue growth opportunities
- exchange knowledge and network with focus on practices
- Interact with government e.g. RWS (licenses)
- Get (financial) advice on proces from start up to scaler by the NEA

Community of Practice

Short impression of the CoP

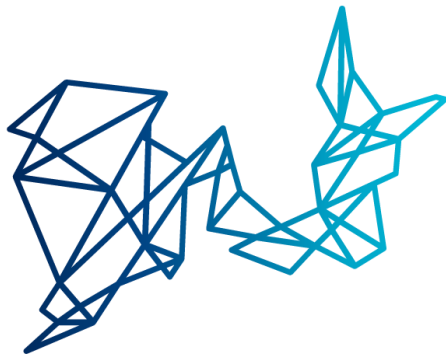

Community of Practice : pilots

- Oyster recovery in the North Sea
- Partners involved:
 - North Sea Foundation
 - Van Oord
 - Nature and environment organisation
 - Eneco
- Aim: Restore nature underwater around windfarms
- Aim: Investigate how nature conservation and sustainable energy can reinforce one another
- Aim: Develop a revenue model
- Where: Luchterduinen windfarm (Eneco)
